

Preamble

We are living in exponential times. The amount of new technical information is doubling every 2 years.

The number of internet devices in

1984 was 1,000

1992 was 1,000,000

2008 was 1,000,000,000.

The students starting a 4 year technical degree, this means that, half of what they learn in their first two years of study will be outdated by their third year of study. The top 50 demand jobs in 2009; did not even exist in 2004. We are currently preparing students for jobs that will not exist.

Change is the law of life. And those who look only to the past or present are certain to miss the future -John F. Kennedy

In Year 2009, a student from PAF-KIET generated 3 Terabyte of unique information by the help of his real world solutions (projects).

- |Waqt-Sparks will fly 2009-Microsoft| (Finalist).
- |21st Century Noiseless Horn- Imagine Cup2009-Microsoft| (Semi-Finalist)....

It is estimated that 4 Exabyte (4×10^{19}) of unique information will be generated this year [2010].

- How much PAF-KIET students will generate unique information this year?
- Will this year; in 2010 someone from PAF-KIET will represent Pakistan in Tech Rev. |Sparks will fly challenge -Microsoft|?
- Will this year; in 2010 someone will carry Pakistan's Flag in Technology World Cup from KIET |Imagine Cup-Microsoft|?

I, in order to present the students of PAF-KIET with a better opportunity to gain literacy in technology, to fortify their current knowledge of projects and competitions, and to help them gain the ability to better teach others the said skills, I present, The 'KIET Tech Club'. Official recommendations of authorized personals are required to initialize the idea. As, I want to commence this club and want to lead this henceforward, I am attaching my document.
